Criteria

7:1:5

1) Restricted entry of Automobiles

The NLC has restricted entry of Automobiles, it means:

- i. Only Staff staying far away and in exceptional cases are given permission to bring automobiles.
- ii. All students are restricted to use automobiles. The management does not provide parking space and entry to the students with automobiles. Almost 100% students comply to use the public transport means.
- iii. Only Limited teaching and non- teaching staff are permitted to use vehicles where the vehicle is parked at entrance parking bay. Automobiles are not permitted to enter the campus area to avoid noise pollution, air pollution or Pedestrian path rights.

4) Ban on Use of plastic

Plastic bags are a major cause of environmental pollution. It causes untidiness in the campus, attracts animals and are the main cause of pollution.

NLC restricts the use of plastic in campus by spreading awareness through flyers and banners which are displayed at various places.

NLC had carried out environmental audit for the promotion of Green campus audit, especially to promote ban on use of plastics.

5) Landscaping with Trees

NLC is placed in huge campus where there is Nalanda ICSE School, Nalanda College etc.

Campus uses **5 acres** of land with restricted compound protected by trees all around.

Inside the Campus, amongst the Institutional Buildings landscaping is done with avenue trees. There are pedestrian paths also with avenue trees.

7) Campus covered with trees

The huge campus has a cover of huge well maintained trees which is unique to see in metropolitan city like Mumbai. A campus covered with greenery.

It is a natural beauty, the management has planned and planted these trees since the inception stage and is well maintained.

Report of Activities for the Implementation of Green Campus:

A) Importance of Green Campus:

1. Aesthetic Value
2. Reduce Environmental Pollution
3. Creates Healthy Atmosphere for teaching-learning.
4. Social binding – Social Obligation.

B) NLC Activities for the implementation of Green Campus:

Direct Activities		Indirect Activities
1.	Restricted entry of automobiles	e-examination e-evaluation
2.	Use of bicycle/battery powered vehicles	e-finance & accounts
3.	Pedestrian friendly pathways	e-admission
4.	Ban on use of plastics	e-administration
5.	Landscaping with trees	e-submission of reports, notices on college website
6.	Landscaping with lush green lawns	e-workshops, orientations, FDP's etc.
7.	Campus covered with trees	e-SSR submission to NAAC
8.	Potted Plant	e-enrolment of students in college in NSS, in DLLE.
9.	Green audit	
10.	Plantation & Conservation	e-data collection e-research publication

11) Description in 500 words.

In response to the growing environmental concerns and the need for sustainable practices, the leadership at NLC has undertaken a comprehensive initiative to transform its campus into an eco-friendly heaven. This **multifaceted** approach encompasses a range of strategies, each contributing to the overall goal of creating a green and sustainable environment.

1) Restricted Entry of Automobiles:

NLC has implemented a stringent policy limiting the entry of automobiles on campus. While exceptions are made for staff residing far away, students are entirely prohibited from using personal vehicles. Even the limited staffs with vehicles are permitted to park at designated areas near the entrance, preventing noise and air pollution within the campus.

2) Use of Bicycles/Battery-Powered Vehicles:

Promoting sustainable transportation, NLC encourages the use of bicycles or battery-powered vehicles. This policy is especially enforced for students, limiting their options to these eco-friendly modes of transport. Staff members are also expected to adhere to these guidelines, with bicycles restricted to parking zones near the entrance.

3) Pedestrian-Friendly Pathways:

The pathways within the campus are meticulously designed to be pedestrian-friendly. Wide tar roads, approximately [REDACTED] feet in width, adorned with trees on both sides, create a serene and well-maintained environment. These pathways ensure a peaceful and safe passage for students, staff, and visitors, free from the disturbances of vehicular traffic.

4) Ban on Use of Plastics:

Recognizing the environmental hazards posed by plastic, NLC has implemented a strict ban on its use within the campus. This initiative aims to reduce visual pollution, minimize harm to wildlife, and foster an eco-conscious community. The institution undertakes awareness campaigns through flyers and banners, fostering a sense of responsibility among its members.

5) Campus Covered with Trees:

One of the distinctive features of NLC is its extensive green cover. The campus boasts a variety of well-maintained trees, providing a natural aesthetic that is uncommon in metropolitan settings. This green oasis not only enhances the beauty of the campus but also contributes to the overall well-being of the NLC community.

6) Potted Plants:

Complementing the natural landscape, NLC has strategically placed potted plants throughout the campus. These green additions not only contribute to the aesthetic appeal but also signify the institution's commitment to a sustainable and environmentally conscious campus.

7) Report of Activities for the Implementation of Green Campus:

NLC has not only implemented these green initiatives but also actively reports on its activities for the promotion of a sustainable campus. This involves a comprehensive approach, including the importance of a green campus, direct and indirect activities, and the positive impact on aesthetics, environmental pollution reduction, and the creation of a healthy teaching and learning atmosphere.

In conclusion, NLC's commitment to a green campus is evident through its holistic approach, covering transportation, infrastructure, and awareness. By embracing sustainability, NLC not only sets an example for educational institutions but also cultivates a culture of environmental responsibility among its students and staff. This initiative stands as a testament to the institution's dedication to fostering a harmonious coexistence with the environment.
